DESCRIBES BOYS' REPUBLIC

William R. George, Founder of Idea, Gives Interesting Talk.

Declares "Citizens" Are Molded Into Model Men and Enforce Laws of Their Government,

of the Junior republics throughout the initiative in obtaining his parole. country, and especially the one maintained near Annapolis Junction, Md., William R. George, of Freeville, N. Y., originator of the idea, addressed a meeting of the Junior Republic supporters yesterday morning at the Arlington. John L. Newbold, president of the republic, also spoke on the work being done at the boys' domain.

Mrs. Mary S. Lockwood, who presided at the meeting, declared the philanthropists of the country would do much and good with their millions by maintaining republics, which mold youthful

characters into model citizens. Mr. George disclaimed the idea that the republics were in part a sort of reform-

'RED TAPE' HINDERS SANITATION IN ARMY

Dr. Hutchinson Scores War Department Methods.

CIVIC WORKERS END SESSION

Noted Physician Stirs Delegates During Lecture on "Why Is the Fly?"-Washington May Be Permanent Meeting Place for Association-Reception to Delegates.

Severely criticising the Department of War for what he characterized as "red tape" methods in the introduction of sanitary appliances in camps, Dr. Woods Hutchinson yesterday afternoon pro vided a mild sensation for the closing session of the American Civic Associa-

"In 1898," said Dr. Hutchinson, "hun dreds of men were dying of typhoid fever in the Florida camps. An officer begun an investigation, detailing two of his private soldiers, who were medical men, to the task. By the order of the War Department the investigation ceased, and the men returned to the ranks.

"The War Department said that it was not fitting that privates should conduct the investigation, but all the same the men were still dying, and the 'official surgeon' detailed to make the 'official investigation' arrived on the scene two days after the camp broke up. "Five times as many men died in the

Florida camps as died from any cause in Cuba, and all because 'privates were not deemed fit' to do the work for which they were qualified. Could there have been anything more silly-more ridic-ulous? It was disgraceful." Department was but incidental to his ecture on the subject, "Why is the fly?" however, met with the heart;

approbation of the audience, and no even the answer in defense of the department, delivered by Dr. George M Kober, quieted the applause in favor of Dr. Hutchinson's charge,

Talk on Community Compact.

The closing session of the convention vas devoted to consideration of com nunity comfort. Edward Hatch, jr. who was to have presided over the meet ing, was unable to be present, and the president of the organization, J. Horace McFarland, acted in his stead. In the ibsence of Mr. Hatch, his report on the work of the fly-fighting committee was read by M. V. Andrews, of New York. The report noted the gratifying recep-tion which had been accorded the edutional work of the committee, particu the moving picture film, "The fly pest, specially prepared for the committee" work, and which has been shown in hun

The Shoe that Sets the Style For Feminine Footwear in America

AME FASHION is just as fastidious about the style of a shoe as she is with respect to the style of a gown.

The shoe of "doubtful" style no longer passes muster with the discriminating woman. She realizes that to be strictly in fashion her shoes must possess distinctive style and elegance.

It is perfectly obvious, then, why so many of America's best-dressed women have elected to wear

For it is beyond dispute that Patrician Shoes set the style for feminine footwear in this country.

You may be certain that the style of a Patrician Shoe is not the result of accident. The best creative genius of America is employed to originate Patri-

cian styles. Some Patrician models, it is true, are adaptations of foreign models, but for the most part they are thoroughly American in conception, representing bold and strikingly artistic departures from every-day, "humdrum' fashions.

\$3.50, \$4.00, and \$5.00

Add to their smartness of shape and beauty of finish an unusual refinement of line that frequently makes possible the wearing of a size smaller shoe, and you

have the sum total of the qualities that make up the Patrician Shoe, excepting only durability, which goes as a matter of course.

Whether you buy Patrician Shoes for street wear, semi-formal, or evening occraions, you will be proud in their possession, for with the wearing comes the knowledge that your shoes are not only exquisitely dainty and beautiful, but right at the top notch of feminine fashion.
